Yesterday I've posted a speech by Solzhenitsyn that he made some 20 years ago at Harvard.

Being the smartest guy when it comes to communism, he emphasized that West has two problems: lack of courage and people want to do everything in 100% legal way. Also, that we will have problems with China and not with Russia

From what I read yesterday, the owner wants the city to pay them for the nights already used. It seems like a last ditch effort by the owner to avoid closing the hotel.

The owner doesn't want to evict the occupants because the city is more likely to pay up. The city seems to be dragging their feet because there's no opportunity for grift if they pay the hotel instead of shoveling taxpayer funds into a homeless charity.

Jay Inslee fucked over Boeing and is making it hard for small businesses to be successful in the State. We've lost our state's largest single source of tax revenue and lost our largest private employer and our largest export all at once. They're not coming back. WA used to be the most profitable state in terms of exports. They've now lost that title, due to Jay "Snake" Inslee. My family is moving out of this state soon, probably to TX.

IMO Fife is a hell hole all of its own. And not in Seattle. With that being said, the irony here gets me... I grew up learning about driving through a few nazi style police towns. “Don’t speed through here... the Fife, Briar, etc... police will pull you over for anything they can....”. Hehe. Now fife cops won’t respond. Lmao.

In Minecraft, you could get normal customers out of there if there are any. Cut phone lines and set up cel jammers all around. Gas it up so they are un-conscious then light it on fire or drop them in the ocean or some shit.

Theft is a protest, it's a crime. By refusing to enforce the law and hand down penalties to law breakers, they are opening the door to more brazen acts. What happens when they start murdering people in 'protest'? "We are just going to keep killing people until you defund the police?" Is that where we are headed?
